## Occupational therapy

### **Occupational therapy**

Occupational therapy will support children with issues regarding movement or perception.

Treatment is aimed at enabling them to build confidence in their own abilities to achieve the greatest possible degree of independence.

### **Our offering**

- Occupational therapy examinations
- Occupational therapy treatments
- Counseling for parents
- Counseling for important caregivers of the child, in particular teachers
- Assessment and adaptation of aids in cooperation with other specialists
- Support in matters regarding adaptation and setting up the workplace

### **Target groups**

Children of all ages and young adults with

- movement issues,
- perception issues,
- attention deficits,
- physical disabilities,
- developmental delays,
- neurological abnormalities,
- executive deficits (planning and implementation).

### **Registration**

Clients are registered by their doctors via a prescription for occupational therapy.

### **Costs**

The costs will be covered by health or disability insurance.
