## Physiotherapy

### **Physiotherapy**

Babies, children and young people whose movement is impaired will receive treatment at a physiotherapy session.

Assistance in improving mobility paves the way for a more independent life style and thus increases the possibilities for a more active social life.

### **The services we provide**

- assessment and treatment by the physiotherapist
- treatment of babies and small children
- counselling for the child's caregivers
- evaluation of the need for helpful aids

### **For whom**

Babies, small children and schoolchildren with

- developmental delay,
- neurological abnormalities,
- respiratory disorder,
- disease affecting their mobility,
- conditions requiring further treatment after an accident or an operation,
- poor posture.

### **Who can organise an appointment**

Your doctor will make an appointment.

### **Costs**

The costs will be covered either by the health insurance company, by the disability insurance or by the accident insurance.
